Speed Labeling with the Potdevin Label Paster

Works automatically or semi-automatically to give you a choice of continuous feeding or demand feeding . . . at the rate you select. And anyone can operate it!

For continuous feed, stack labels in adjustable hopper, set the speed, engage a lever. Labels are delivered automatically with adhesive applied. And the operator has both hands free to apply labels to product.

For demand feed, simply press the lever each time a label is desired. Ideal for short runs.

Uniformly glued labels every time . . .

Dial-a-coat regulator applies exact amount of adhesive needed. No waste. No mess. The ungummed side stays neat and clean.

Three models . . .

Adjustable hopper accepts most sizes within range of each machine.

Model	Minimum Size Label	Maximum Size Label
ALM6	½ x 1½	5½ x 12
ALMF8	½ x 1½	8 x 12
ALMF12	½ x 1½	11½ x 12

Order your Potdevin label paster today. Automatic or semi-automatic, once you've seen how it boosts production, you'll stick with it!
