LOWER COSTS with POTDEVIN label pasters

Easy to operate . . .
boosts production

POTDEVIN Label Pasters are saving time and money in over 20,000 plants.

POTDEVIN COATING CONTROL
Regulates the exact coating required on labels. Accurate coating eliminates warping, blisters, wrinkles, lumps or oozing of paste at edges of labels. Uncoated side remains perfectly clean.

Save up to 30% time in labeling bottles, cartons, cans, boxes and other items. Here is just a representative group of the many products labeled with POTDEVIN LABEL PASTERS

Wines
Liquors
Cosmetics
Cigar Boxes
Cotton Goods
Grinding Wheels
Rubber Goods
Food Products
Rolls of Paper
Greeting Cards
Chemicals
Pharmaceuticals

Knitwear
Batteries
Hosiery
Paint
Tile
Electrical Devices
Toys
Games
Linoleum
Beetleware
Roofing Paper
Hardware

Potdevin Machine Company
Operators can continuously paste odd size and shape labels at a fast, steady pace without any changes in machine adjustment. One or two operators can alternately supply themselves with an assortment of labels. Or one operator can supply labels to three or four operators who manually apply the labels. Short runs or special jobs can quickly be handled with the POTDEVIN LABEL PASTER. Ideal as an auxiliary labeler in plants with mass production set-ups. The quality of the hand labeled items will compare favorably in appearance to the neatness and uniformity of automatic machine results.

**Easy to Clean!**
The pasting machine unit is simply lifted from the motor base for cleaning. Its ease of cleaning permits use of many types of water soluble cold liquid adhesives. Rugged, all-metal construction brass rollers and oilite bearings insure years of trouble-free service.
